No.: CRN-11-009(S)

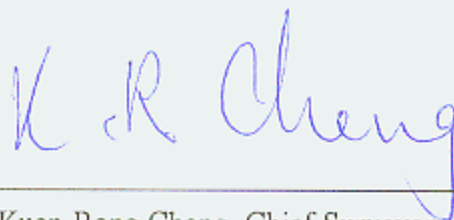

Date : April 26, 2011

To: All companies/ factories manufacturing dangerous goods  
packagings/containers

To safeguard the rights and interests of factories manufacturing dangerous goods  
packagings/containers, we have specially prepared anti-fake labels for use by these  
factories. The current scope of use is described as follows and will be expanded in the  
future depending on circumstances.

1. When using labels on dangerous goods packagings/containers, the following points are to be noted:
  - (F) All small packagings and intermediate bulk containers (IBCs) such as steel drums/jerricans, aluminum drums/jerricans, plastic drums/jerricans, and natural wood boxes shall bear anti-fake labels.
  - (G) When responding to a manufacturer's application and assigning a lot number, we will send the same quantity of anti-fake labels to the manufacturer by mail at the same time. In addition, the manufacturer is requested to paste the labels on the outside of packagings, take photos for filing purposes, and send in such photos to Ms. C. C. Chang in Taipei ([ccchang@crclass.org.tw](mailto:ccchang@crclass.org.tw)) or Ms. S. Y. Sun in Kaohsiung ([betty.sun@crclass.org.tw](mailto:betty.sun@crclass.org.tw)) for pre-check. When issuing a Product Certificate, we will indicate on it that there is a CR label on each of the products.
  - (H) During a certificate renewal survey or product annual survey, our surveyor will check the pasted photos and the condition of anti-fake labels.
  - (D) The place for pasting should be as close as possible to the UN number or nameplate, and the label should be visibly displayed and not be easily worn down or damaged.
  - (E) The regulation for use of anti-fake labels will be implemented on March 16, 2011.
2. If a dangerous goods packaging / container is found without an anti-fake label and the UN lot number is found to be fake after verification, we will cancel all Type Approval Certificates issued to the factory manufacturing dangerous goods packagings/ containers and charge a penalty for such violation.

Sincerely yours,

Kuen-Rong Cheng, Chief Surveyor
